

The solid oak bookcases that wrap around this library by interior designers K&H Design were designed to complement the Georgian architecture of this rectory. They have been painted in Farrow & Ball's 'Stiffkey Blue' (£62 for 2.5 litres estate eggshell) and the effect is fresh yet classic. The ceiling coving continues across the front of the units to create a sense of cohesion. [kandhdesign.co.uk](http://kandhdesign.co.uk) | [farrow-ball.com](http://farrow-ball.com) ▷
